

Titrator Service Plans

Get Peace of Mind with Hanna Instruments

Keep your titrator operating at optimal performance! With the harsh chemicals used in most titrations, even titrators need some TLC! Regular maintenance is necessary to ensure the longevity of your equipment. At Hanna, we offer a variety of titrator service plan options, so that you can test with ease and be confident in your results.

Installation & Training

Onsite Install

- One (1) onsite service visit performed by a Hanna Applications Engineer
- Installation of titration system
- Optimize and back up titration methods
- Train technicians on titrator operation

Web Install

- Up to three (3) hours on a video call with a Hanna Applications Support Engineer
- Train technicians on titrator operation
- * Available only for specific applications
- * Web install is available for one or two parameter systems using pH or ORP probes

Additional Services

Technical Repair

Send in your titrator to us for annual calibration, repairs, and maintenance. Our Tech Support team will service the equipment and send your titrator back to you in a timely manner.
